---

Dated: 18th April 2019

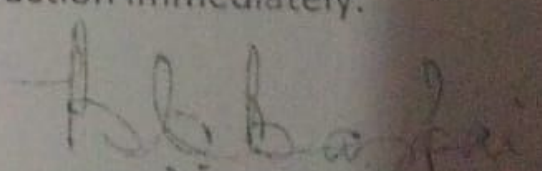

N O T I C E

It was on various occasions brought to the notice of the residents to remove the personal belongings , sun shades, etc., which have been stored in the public places/staircases . Regret to note that no efforts have been made by the residents concerned to get the personal belongings , sun shades in this regard till date. It is desired that the same may be got removed immediately failing which the managing committee may take necessary appropriate action.

It may kindly be noted that the bicycles of the children are also not parked in the parking spaces provided in the stilt areas. It is desired that the personal belongings may not be kept in the stair case area . This repeated request is being sent to the residents as the society has been receiving reminders from the Power distribution company that the personal belongings that have been stacked in the staircase has been causing problems in the taking the meter reading.

It is therefore desired that if the stored items are not removed forthwith the reading may not be taken by the representatives of the power distribution company and may result in average billing. To avoid this situation kindly remove the unwanted things from the staircase area. The removal would not only help the representative of the power distribution company but also keep the society neat and tidy.

You are therefore requested to take necessary action immediately.
