Subject: Children Bicycle

Dear Residents,

Bicycles of some children are parked in chain near the Main Guard Room. Despite reminders no action has been taken till this time. Allow me to refresh your memory with a directive we shared with you that if the cycles are redundant, not been used any more they should be disposed off or donated to under privilege children. If it is not done promptly we would rather give to improvised kids to enjoy and make use of it than staying shackled to chain and taking up spacious space. Please note that this is a final reminder of removal/disposal, failure to do so would mean that the Managing Committee of Society will do what it deems fit and in case of selling will deposit the proceeds in the society's account.

With Love and Regards.

Secretary

THE OFG COOPERATIVE GROUP HOUSING SOCIETY LTD.

Dear Residents,

Allow us to refresh your memory on the Central Park, a centre of beauty, commune area for the residents to gather and absorb what winter/summer has on offer. It proved to be a haven especially during lockdown.

Created in 2012, prior to which the place was not paved and in use for parking cars. There was no spot where residents could spend time outdoors while also being nestled in the security of the apartment with family. Huge efforts to raise funds, infuse cooperation and support led to transforming this ugly duckling into a Swan. This effort is too precious to fritter away at any cost.

Of late it has been observed a few children are adamant on using this area for playing Football-Hoola Hoop or any high intensity sport thereby damaging the grass needles and its beauty. We cannot allow this area to become barren again especially after the contribution of time and money by one and all. It takes mammoth resources and time in nurturing and maintaining this area as a green sacred space.

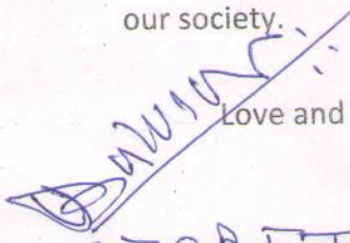

This effort even got attention and appreciation not only from other communities, but also the area MLA and Corporator of our ward. We understand the need for sport and hence have availability of dedicated areas for Badminton [REDACTED] the paucity of space does not allow any room for any other sport or land use and hence it will be non negotiable for four or five children to hold that space ransom.

Please note any further damage or destruction by way of flouting the rules will incur damages by the offenders. Sometime back some of you might be knowing that delegation of parents had come to society office to plead the [REDACTED] They were told very clearly that park has not been developed for playing Football or any other sport and should educate children to maintain the beauty and greenery of the park.

~~Dear~~ Request to all of you to please mentor your children and respect the society rules regarding the same thereby upholding the intended purpose of the space.

Hope that all of you will involve yourself and help us in maintaining the beauty of our society.

Love and Regard

SECRETARY
